

UbiCrypt Summer School 2014

crypt@b-it

Summer School on Cryptography

July 28 - August 01, 2014
Horst Görtz Institute for IT-Security,
Ruhr-University Bochum, Germany

This summer school on cryptography offers PhD students, graduate and undergraduate students and researchers the opportunity to crypt a bit. It provides acquaintance and interaction in an intellectually stimulating and informal atmosphere in pleasant surroundings.

Special focus:

- * **Discrete Logs**
- * **Functional Encryption**

Speakers:

- * **Gary McGuire, UCD School of Mathematical Sciences, Dublin**
- * **Hoeteck Wee, École normale supérieure, Paris**

For further information and registration see

ubicrypt.org/veranstaltungen/summerschool2014.

Please register online before Tuesday 1st July 2014.
Note that the number of participants is restricted.

Hoping to see you (or your students) in Bochum this summer!

On behalf of the organizing staff,

Alexander May, Dominik Baumgarten
(Horst Görtz Institute for IT-Security)
Joachim von zur Gathen, Daniel Loebenberger, Michael Nüsken
(Bonn-Aachen International Center for Information Technology)
